Our Three-Fold Program Is A Unique Solution To Your Labor Needs

Dealing with the responsibilities and risks of employment can be time consuming and a financial drain. Solving issues such as

- high turnover
- low productivity
- poor attendance
- tardiness

Requires a unique modern approach to hiring. We developed a progressive, three fold, employment solution that differentiates us from the rest of the employment industry.

This cost effective, modern approach has proven time and again the answer to many companies' hiring hassles.

Our Recruiting Solution

Resource does the recruiting and interviewing for you. Many employment agencies localize their candidate search sharing the same pool of employees. Resource conducts interviews throughout the nation. We have access to over five-million candidates for all job positions including warehousing, manufacturing, distribution, hospitality and others. Whether your company needs four or four hundred employees, we will customize a work force for you.

Our Candidate Solution

We specialize in recruiting Hispanic-Americans.

These new citizens are the fastest growing and largest minority group in our country and soon will expand to a quarter of the U.S. population. This loyal work-force comes from third world countries where they customarily worked long hours for much lower wages. They start life anew in this nation and bring with them strong family ties and valuable work ethics. They want jobs and they want to work.

Our Relocation Solution

This feature of our employment solution further demonstrates the uniqueness of our agency. Your employees need to feel comfortable in their adopted surroundings. Therefore, we focus on quality-of-life issues that help ensure a happier and more productive work force.

Our program assists them with:

- Relocation
- Acclimation to the work environment and neighborhood.
- Housing transportation
- Job orientation and transportation

A large number of our recruits are bilingual. When necessary, we include bi-lingual Management or establish on-site English classes.

"Finding over 80 seasonal associates within 10 days was no easy task. I am glad Resource was up to the challenge and provides us with reliable, productive workers year after year"
